Longines
THE WORLD'S MOST
HONORED WATCH

IN AVIATION

Longines has been the choice of aviators in practically all the great historic flights for the past 25 years. Unfailing dependability has put Longines watches into the cockpits for the majority of the world's aircraft. Longines personal watches enjoy leadership in 77 countries.

Tissot
(TISS-O)

AQUASPORT

THE WATERPROOF
WATCH DESIGNED
SPECIFICALLY FOR
ACTIVE MEN !

Every Aquasport is equipped
with Tissot's new movement
in time. . .

RHYTHMIC OSCILLATION

Tissot technicians have achieved this exceedingly accurate movement through mechanical features which are built into every Tissot watch: the non-magnetic NIVAROX hair-spring protects the movement from electrical influence; a new development in balance wheel construction guards against jolts and jars; plus the latest achievements in technical watchmaking, as evolved by master craftsmen in Switzerland. Undoubtedly, Tissot's RHYTHMIC OSCILLATION provides incomparable timekeeping service. Of value to Airmen is the fact that Tissot Watches are sold and serviced in every country in the world.

ROLEX

OYSTER

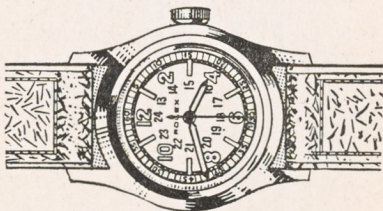

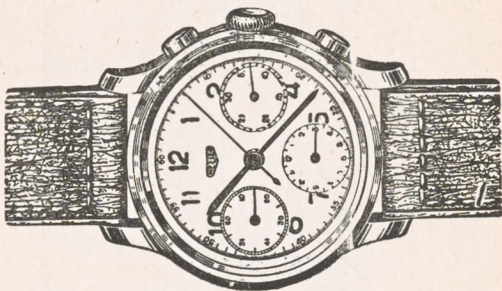

The ROLEX Oyster Wristwatch is the original and only permanently guaranteed waterproof watch. Through its patented construction, it is the only air-tight watch made without rubber, or other perishable material. Its remarkable case protects a really high grade movement of modern design. The ROLEX Oyster Wristwatch is unaffected by any climate changes and is, therefore, capable of exceedingly close time-keeping. Endorsed by the British Government, and the Paris Institute of Science, the ROLEX Oyster is used by more R.A.F. Pilots than any other watch.

AS ORDERED BY THE BRITISH ADMIRALTY
